

# Argho Mitra

## Frontend Design & Development Intern

Recently graduated Bachelor student in Information Management & Multimedia with a strong focus on frontend development and UI/UX design. Throughout my bachelor studies, I consistently performed well in frontend-related courses and projects, developing a deep interest in creating user-friendly, visually consistent, and responsive interfaces. I enjoy translating ideas and data into clean digital experiences using modern frontend technologies and design tools. Motivated to grow as a Frontend Designer in a collaborative, innovation-driven environment.

## Education

### Bachelor in Information Management and Multimedia

#### - Data Science, Protection & Security

Sep 2022- Feb 2025

Thomas More University, Mechelen, Belgium

## Experience

### VAEngineering

#### Software Tools & Integration Intern

Sep 2025- Dec 2025 | Flemish Region, Belgium

#### Key Challenges & Contributions:

- Worked in a technically complex environment involving CI/CD pipelines, Docker, and DevOps tooling
- Collaborated with engineers to understand system workflows and tool integration requirements

#### Outcomes & Impact:

- Automated software workflows, improving efficiency and consistency in deployment processes
- Gained strong experience in structured development environments, version control, and cross-team collaboration
- Strengthened problem-solving and documentation skills

## Projects

### Camping Spot Finder (Airbnb Clone) |Vue.js, Swagger API

#### Challenges:

- Designing a clear and intuitive booking flow
- Integrating frontend components with backend APIs

#### Results:

- Implemented user-friendly browsing and booking experience
- Improved API understanding and frontend-backend collaboration

Frontend : <https://f95fd17f.camp-spot.pages.dev/>

Backend : [https://github.com/arghomitra/Camp\\_spot\\_backend](https://github.com/arghomitra/Camp_spot_backend)

### Banking Application | C#, .NET (Windows Application)

#### Challenges & Results:

- Managing complex user actions such as transactions and account administration
- Developed a structured UI for banking operations. Implemented transaction logic and admin dashboards

## Skills

### Technical Skills

- Programming:** Python, C#
- Frontend & Design:** Vue.js, API, HTML5, CSS, JavaScript
- Data & Cloud:** SQL, AWS, SAP HANA, Power BI

### Soft Skills

- Problem-Solving
- Adaptability
- Structured Planning
- Attention to Detail

## Languages

- Bangla - Native
- English - Fluent
- Dutch - B1 (2.3)

## Certification/Short Courses

- AWS Cloud Practitioner
- GitLab CI/CD: Pipelines, CI/CD and DevOps for Beginners

## Volunteer Experience

### Unibuddy

#### (Student Ambassador)

- Assisted prospective students with university insights and enrollment queries.
